Field Crops Research

Contents of Volume 41

Vol. 41 No. 1 April 1995

Analysis of growth and yield of maize, sunflower and soybean grown at Balcarce, Argentina
F.H. Andrade (Balcarce, Buenos Aires province, Argentina) 1
Carbon dioxide enrichment and temperature effects on cotton canopy photosynthesis, transpiration, and water-use efficiency
V.R. Reddy (Beltsville, MD, USA), K.R. Reddy and H.F. Hodges (Mississippi State, MS, USA) 13
Flowering of pigeonpea (*Cajanus cajan*) in Kenya: Responses of early-maturing genotypes to location and date of sowing
P.A. Omanga, R.J. Summerfield and A. Qi (Shinfield, Reading, UK) 25
Prediction of leaf appearance in wheat: a question of temperature
P.D. Jamieson (Christchurch, New Zealand), I.R. Brooking (Palmerston North, New Zealand), J.R. Porter (Bristol, UK) and D.R. Wilson (Christchurch, New Zealand) 35
Carbon isotope discrimination and grain yield for three bread wheat germplasm groups grown at different levels of water stress
K.D. Sayre (Mexico, D.F., Mexico), E. Acevedo (Santiago, Chile) and R.B. Austin (Cambridge, UK) 45
Tiller mortality and its relationship to grain yield in spring wheat
R.C. Sharma (Chitwan, Nepal) 55

Book Reviews 61

Vol. 41 No. 2 May 1995

Radiation-use efficiency of sunflower crops: effects of specific leaf nitrogen and ontogeny
A.J. Hall, D.J. Connor and V.O. Sadras (Buenos Aires, Argentina) 65
A simulation model for assimilate partitioning between pods in pea (*Pisum sativum* L.) during the period of seed set; validation in field conditions
M.-H. Jeuffroy and F. Devienne (Thiverval-Grignon, France) 79
Vernalization in wheat I. A model based on the interchangeability of plant age and vernalization duration
S.-Y. Wang, R.W. Ward, J.T. Ritchie (East Lansing, MI, USA), R.A. Fischer (Mexico, D.F., Mexico) and U. Schulthess (East Lansing, MI, USA) 91
Performance of high-protein mutant lines of *Triticum aestivum* (L.) under semi-arid conditions of Syria
N. Mir Ali (Damascus, Syria) 101
Effect of organic matter input on the water balance and yield of millet under tropical dryland condition
F. Affholder (Montpellier, France) 109
Rice seedling establishment as affected by cultivar, seed coating with calcium peroxide, sowing depth, and water level
M. Yamauchi (Manila, Philippines) and P.V. Chuong (Hanoi, Viet Nam) 123
Forage yields and quality of common vetch and oat sown at varying seeding ratios and seeding rates of vetch
R. Caballero, E.L. Goicoechea and P.J. Hernaiz (Madrid, Spain) 135

Vol. 41 No. 3 June 1995

Review
Impact of strategic genes in soybean on agricultural development in the Brazilian tropical savannahs
C.R. Spehar (Planaltina, DF, Brazil) 141

Research Papers

Variation in drought susceptibility among closely related wheat lines
M.D. Lazar, C.D. Salisbury (Amarillo, TX, USA) and W.D. Worrall (Vernon, TX, USA) 147

The influence of daylength on final leaf number in spring wheat
I.R. Brooking (Palmerston North, New Zealand), P.D. Jamieson (Christchurch, New Zealand) and J.R. Porter (Taastrup, Denmark) 155

Emergence date mediation of rice yield responses to equidistant spacing
P.A. Counce and T.C. Keisling (Keiser, AR, USA) 167

Heritabilities, gains from selection and genetic correlations for grain yield of barley grown in two contrasting environments
H. Bouzerzour (Oum El Bouaghi, Algeria) and M. Dekhili (Sétif, Algeria) 173

Transpiration efficiencies of maize and beans in semi-arid Kenya
C.J. Pilbeam, L.P. Simmonds (Reading, UK) and A.W. Kavilu (Nairobi, Kenya) 179

Book Reviews 189
